

## OUR TRUCKING EXPERIENCE WORKS TO YOUR ADVANTAGE.

Volvo Financial Services works exclusively with products from the Volvo Group. This exclusivity means we know trucks – and the heavy duty trucking industry. We use that knowledge and work with your local Volvo dealer to develop the right financial solution for your business and cash flow needs.

Everyone on our staff is passionate about your success. We're a trained, experienced team of professionals, and you can count on us for information and advice to help your business grow.

We're here to build strong and lasting relationships. And the strength of the Volvo Group ensures that the resources of a global leader are behind you every mile of the way.

## PUT A GLOBAL LEADER TO WORK FOR YOU.

In 1928, Volvo built its first truck to serve a growing trucking industry. Our challenge was to build quality trucks that met the demands of the job while balancing driver comfort and safety. Our dedication to achieving that balance has stood strong, and the Volvo brand is now one of the best known and most respected in the world.

As a result, when you choose Volvo, you are buying exceptional equipment supported by a strong dealer network, and industry-leading finance, parts and service programs.

We want your ride to success to be a smooth one.
